Application Information

Text Fields:

Depending on the your answer to the questions, you will be provided text fields to expand on your answer. Please use this fields to adequately and succinctly respond to the question.

Drop-down List:

Drop-down lists have pre-selected choices for convenience, however those in the Project Information section can accommodate new information or you can add information to one of the pre-selected choices.

Location Map Image:

The Project Location Map image files must be cropped in the general dimensions of the image field outlined in the section and formatted as .jpg, .tiff, or .png.

Editing and Spell-Check:

Only active fields within the interactive version can be edited. Additionally, the template checks for spelling, which is only active in the text field in which you have your cursor.

Signatures:

To sign the form, click the available signature field indicated by the red tab and enter your password. If you do not have an encrypted signature set up, you will be prompted to create one.

Supporting Materials:

Cover sheets for the Supporting Materials are attached to the end of the application form. When you have completed and signed the application, please print to PDF and insert the support materials behind the appropriate cover sheet.

Application Submittal

Once you have completed your application, please upload the completed document to the FTP site:

Technical Support

If you are having any issues with the application form, please email Ryan Collins at ryan.collins@campotexas.org.

Help Remove

Application Best Practices

- **Prepare Responses in Word: Depending on what PDF Viewer you are using, it will not always save draft responses, so it is recommend that you prepare responses in a separate Word Document and transfer once you are ready.**
- **Print to PDF: When you have completed the application, please print to PDF. This converts the form to a regular PDF in which you can insert supporting materials.**

Application Best Practices

- **Signatures: If you are having trouble digitally signing the active form, insert a signature in the regular PDF (after you Print to PDF). You may also physically sign and scan a copy of the page and insert it into the PDF.**
- **Bookmarks: Please bookmark items in the supporting materials.**

Application Submittal

Submit Project Call Applications on the CAMPO Website by January 18, 2018 at 5:00 P.M. Central
