

CAMPO Map Package Layer

CAMPO General Data

- Highway Shields: Roadway symbology
- County Boundaries
- Major Roads
- Roads: All roads
- Lakes
- Environmental: Areas that are protected land or that is in an environmentally sensitive area.

Draft 2045 RAS

- Diamond Lanes: Potential HOV facilities
- Regional Connectors: A list of all potential regional connectors
- Safety: New and improved facilities that address safety concerns
- Regional and Supporting Connectors: Existing, new, and improved regional and supporting connectors
- Full Network: Full network of existing, potential new, and potential improved roadway facilities

Vulnerability Analysis

- Total Score: Composite of all Vulnerability Components
- Individual Components
 - o Zero Car Household: Gradient showing "Occupied housing units - No vehicles available."
 - o Limited English Proficiency: Gradient showing "Population 5 years and over - Other languages - Speak English less than 'very well.'"
 - o Disability: Gradient showing "Disability status of the civilian noninstitutionalized population - Total Civilian Noninstitutionalized Population - With a disability."
 - o School-aged: Gradient showing "5 to 14 years + Percent; Estimate; selected age categories - 15 to 17 years."
 - o Seniors: Gradient showing people "65 years and over."
 - o Minority: Gradient showing "Total population - Not Hispanic or Latino - White alone."
 - o Low Income: Gradient showing "1.99 or lower ratio of income to poverty level of families in the past 12 months."

Land Suitability

- TX Gazetteer: Places of significance like cemeteries, educational facilities, and health care facilities
- Faultline: Geological faults.
- Aquifers: A body of permeable rock which can contain or transmit groundwater.
- Soil Quality: Gradient showing the range of soil plasticity.
- Flood zones: geographic areas that FEMA has defined according to varying levels of flood risk.

- Characteristic Fire Intensity Scale: Gradient showing wildfire susceptibility from the Texas Wildfire Risk Assessment Portal.

Regional Active Transportation Plan

- Projects: Projects that are either Existing, New Construction Needed, and Potential Upgrade
- Bike Network
 - o Recommended Bike Facilities
 - o Existing Bike Facilities
 - o Needs: Bike and Pedestrian
 - Identified by municipal governments or CAMPO
- Sidewalks: Existing and Planned Sidewalks
- Vision Network: Gradient of top needs (Tier 1) to lowest priorities (Tier 3)
